DETAILED ACTION

1. Claims 1-3, 5-7, 12-15, 22, 24-30, 32, and 34 previously allowed in the Notice of Allowance of October 4, 2006.
2. It has come to the Examiner's attention that the dependency of the allowed claims was incorrect, since original claims 12 and 13 both depend from a subsequent claim, original claim 27. Therefore, the allowed claims have been renumbered in order to correct the dependency. The claims are renumbered as follows: original claims 1-3 remain numbered the same, claims 5-7 are now 4-6, original claims 12-15 are now 8-11, original claim 22 is now claim 18, original claims 24-18 are now 12, 13, 14, 7, 15, 16, 17, original claim 32 is now claim 19, and original claim 34 is now claim 20.

SUPPLEMENTAL REASONS FOR ALLOWANCE

3. Claims 1-3, 5-7, 12-15, 22, 24-30, 32, and 34 were previously allowed in the NOA of October 4, 2006. The claims remain allowable, as newly renumbered claims 1-3, 4-6, 8-11, 18, 12-14, 7, 15-17, 19, and 20. The following is an examiner's statement of reasons for allowance:

This invention relates to novel 2-mercapto-4,5-diaryl-imidazole derivatives, their pharmaceutical compositions, and their methods of use. The allowable compounds are limited to compounds according to formula I of claim 1. Certain diaryl-imidazole compounds are known in the art as having the ability to inhibit the activity of cyclooxygenase, however the aspect of preparing the instant claimed 2-mercapto-4,5-diaryl-imidazole derivatives, with COX-1 and COX-2 inhibitory activity, is novel and unobvious. The instant compounds were tested for selective inhibition of COX-1 (please refer to inhibitory results, IC₅₀ values, etc. found in Tables 1-17 of the specification), which makes them useful as anti-inflammatory and

immunomodulatory agents. After a thorough search, the closest of prior art, U.S. Pat. No. 4,355,039 to Niedballa, et al. was found to teach similar diaryl-imidazole derivatives as anti-inflammatories. However the '039 patent fails to teach or render obvious the instant claimed compounds according to formula (I), and does not fairly suggest methods of using the instant claimed compounds as COX inhibitors for treating inflammation, etc.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
